

Rinnai

Portable

Air Conditioner

Convenient cooling that moves with the times

At Rinnai, we're all about comfort

For over 50 years, Rinnai has supplied Australian homes with a range of appliances that help people lead comfortable, safe and efficient lifestyles.

Being driven to create comfort means that we really care about our products and your experience from start to finish. We're focused on developing products with the latest technology and our level of quality is second-to-none, so you can rest assured knowing Rinnai will deliver.

We're at your service

The National Customer Care Centre provides first class service and maintenance of your system, ensuring it's running at its highest efficiency - so you can enjoy the Rinnai experience for many years to come.

Operating 5 days a week
(Monday to Friday)

With Australian living spaces rapidly changing, Rinnai's Portable Air Conditioners provide flexible cooling solutions that deliver convenience tailored to individual comfort needs.

With an elegant & compact design, this Portable Cooler provides functional features such as a self-evaporative system to eliminate the use of a bucket to capture water, and an intelligent sleep mode that not only accurately adjusts temperature to maintain comfort, but lowers energy usage overnight.

Features and Benefits

Adjustable Temperature Control
Have full control of your localised comfort levels by setting conditions exactly how you like them.

Simple Remote Control
Practical functions allow you to effortlessly make the most out of the system.

Delay Timer
Set the time to switch on or off depending on your preference.

3 Speed Fan
Manage the output levels of the unit. Swiftly cool down or have gentle air movement.

Swing Function
Allows maximum air flow throughout the room for optimum efficiency.

Omni-Directional Caster Wheels
Easily maneuver the appliance around with wheels that move freely.

Convenient Carry Handles
For ultimate portability around the home.

Dehumidifying Mode
Efficiently manages room humidity levels to ensure optimum comfort levels during humid summer days.

Sleep Mode
Increases and decreases the set temperature over a 10 hour period, following a similar pattern to outside ambient temperatures. Not only does this save on energy, but provides you with a peaceful sleep.

Self-Evaporative System
Instead of needing to empty a water bucket constantly, the system evaporates condensate through the exhaust duct.

Ventilation Kit
Allows the unit to vent hot air outside. Each kit includes the necessary components for either window or wall installation.
